

ConceptDraw PRO Data Sheet

ConceptDraw PRO is fully-functional diagramming platform, allow you to perform various diagramming tasks from low-level sketching and drawing to creating rich business diagrams and presentations.

ConceptDraw PRO purpose to help create business visual documentation, technical schemes, illustrations and presentation.

To perform multiple tasks ConceptDraw PRO contains hundreds of templates and libraries.

As a new generation of diagramming tools supports diagramming technologies: RapidDraw, Dynamic Guides and Touch-insert for quick diagramming, Live Objects (indicators, interactive and intelligence objects), User-defined properties, PowerEdit for deep customizing, Dynamic Presentation.

API for diagramming needs from 3rd party applications.

Application Compatibility

- Versions of MS Visio
2007/2010/2013/2016
- ConceptDraw PROJECT v 7
ConceptDraw MINDMAP v8
- ConceptDraw Office v3

Diagramming Tools

Drawing Tools

Simple drawing tools: line, arc, spline, rectangle, oval that allow to create shape of custom form
Text Tools: Text tool, Quick text enter, Fit shape to text, Autoexpand mode, Text clipping, Text Callouts, Text editing and formatting tools predefined text styles, Rich text block format options.

Connectors

Auto routing connectors
Any object can be transformed to connector
Connector types: Direct, Smart, Curve, Round, Bezier and Arc

Predefined Templates, Objects

Library Navigator
Hundreds of libraries for different activities
User-defined libraries and templates
Samples for templates

Quick Diagramming

Shapes gallery
RapidDraw for block diagrams
Touch-insert
Libraries of ready to use objects
Live Objects
Dynamic Snap
Autoconnect mode
Clone tool
Arrangement and alignment options
Substitute and replace commands

Customizing Objects

Line styles and arrows
Fill styles, intelligence gradients, textures, shadows
Geometrical and placement commands
Hyperlinks
Properties lock options

Objects Special Behavior

User-defined properties
User-defined object behavior by double-click
Predefined Objects Actions
Objects Control handles
Deep customizing objects using PowerEdit feature

Live Objects

Interactive Objects With Actions
Indicators Changing View Depend On Data
Data Sources For Live Objects
Pages
Multiple Pages In Single Document
Multiple Background Pages In Document
Page Navigator For Page Handling
Pages Operations: Reordering, Drag&Drop Objects
Between Pages, Duplicate Pages

Document Settings For Easy Work

Different Units of Measure
Grid and Guides
Snap to Grid, Objects, Guides
Layers (Invisible, Disabled From Printing)

Presentations

Create and show Presentations

Multi paged presentation
Create Presentation mode
Presentation settings (display, slides auto switching)
Save document as presentation (PowerPoint or Adobe SWF formats)
Hyperlinks for customizing presentation navigation
Dynamic presentation
Dashboard presentation

Document Input/Output

Imports & Exports

Import/Export: MS Visio drawings (vdx, vsdx)
Import MS Visio stencils (vssx)
Import/Export: MS PowerPoint
Import/Export: (Png, Jpg, Bmp, Gif, Tiff, Emf)
Export to Adobe Acrobat (pdf)
Export to HTML
Export to SVG

Printing

Simple Basic Settings
Highly Customized Printing Settings
Exclude objects and whole layers from printing

ConceptDraw Solution Park

Looking for additional productivity tools? Want to know what 3rd party developers have released for ConceptDraw PRO?

Visit ConceptDraw Solution Park for the latest productivity add-ons that are focused on making you more productive each and every day. Come to the ConceptDraw Solution Park to see what free and paid solutions are available to you.

We are constantly adding new solutions.
Here some of solutions examples:
Live dashboard «Multipage Multiproject»
Live dashboard «Tactical dashboard»
Live dashboard «Strategy Dashboard»
Reports: bucket reports in ConceptDraw PRO and ConceptDraw MINDMAP.
Project Diagrams Radial tasks
Project Diagrams Milestones Chart
Project Diagrams
Explore knowledge
Apply the knowledge to get results in the projects.

3rd Party/ Corporate Developers

Development API available
ConceptDraw PRO XML Reference
Objects Core Reference
Built-in Basic script language
Ingyre2 support

Macintosh ®

OS: Apple OS X 10.10 and higher
CPU: Intel
RAM: 1.5 Gb
HDD: 650 Mb

Windows®

OS: Microsoft Windows 7/8.1/10 (32-bit & 64-bit certified)
CPU: Intel or AMD; 1.8 GHz or higher
RAM: 1.5 Gb
HDD: 540 Mb disk space (1.5 GB during the installation)
